

VIGNESHWAR P

Final-Year B.Sc. Computer Science Student | Entry-Level IT & Software Professional

+91 9884131369 | pvignesh6942@gmail.com | github.com/pvigneshwar

PROFESSIONAL SUMMARY

Final-year B.Sc. Computer Science student seeking entry-level IT, application support, technical support, or junior software roles. Hands-on experience with Java, Python, web technologies, databases, Git/GitHub, software testing, and project deployment. Built projects involving credential verification and secure USB monitoring, with strengths in troubleshooting, problem solving, teamwork, and learning new technologies.

TECHNICAL SKILLS

Programming & Web: Python, Java, JavaScript, HTML, CSS, SQL

Databases: MySQL, SQLite

IT & Development Tools: Windows, Git, GitHub, VS Code, PyInstaller, VeraCrypt, Figma, Canva

Basic Familiarity: FastAPI, Streamlit, Android/Kotlin, Netlify Functions, Netlify Blobs, OCR, and Gemini API integration

EXPERIENCE

Junior Software Developer Intern - Java Domain | VCODEZ - Innovating Ideas 3 Months

- Developed, tested, and debugged Java web application components while gaining practical exposure to full-stack development, database integration, and issue resolution.
- Built “Specialized Enciphered Access Through Text Steganography,” a Java-based application for securely embedding encrypted information within plain text.

PROJECTS

ALIAS_X - Autonomous Verification Protocol | Python, Streamlit, OCR, Gemini API

- Built an AI-assisted academic credential verification system that extracts certificate details using OCR, supports manual correction, tracks verification status, and generates downloadable PDF reports.
- Implemented institutional phone/email verification workflows, user authentication, and secure result storage in a multi-page dashboard.

Smart USB Guardian - Secure Portable Storage Monitoring System | Python, JavaScript, Android/Kotlin, Netlify, VeraCrypt

- Developed a cross-platform USB security system with Windows auto-detection, Android OTG support, authentication, access logging, activation alerts, and connected/disconnected status monitoring.
- Protected private files using a VeraCrypt encrypted vault and provided a web dashboard for USB registration, device management, location reporting, and client downloads.

EDUCATION

Patrician College of Arts and Science - B.Sc. Computer Science CGPA: 6.65/10	2023-2026
Victory Matriculation Higher Secondary School - Class XII 60%	2022-2023
Victory Matriculation Higher Secondary School - Class X 60%	2020-2021

LEADERSHIP & CERTIFICATIONS

Leadership: ICT Vice President, College Badge Holder, and Campus Event Coordinator at Patrician College.

Selected Certifications: IBM - Web Development Fundamentals; UiPath - Automation Explorer; Google - Introduction to Generative AI; Microsoft - Explore Generative AI.
